

## Nursing Profiles...Nursing Profiles... Nursing Profiles...

May, 2011

### NORTH SHORE MEDICAL CENTER FMC CAMPUS

#### Bea Fialk, R.N.

While a lot has changed in 50 years, one thing has remained constant for registered nurse Bea Fialk: her pride in and passion for being a nurse. In fact, 29 of her 50 years of nursing experience have been dedicated to providing excellent nursing care to patients at North Shore Medical Center FMC Campus. Fialk currently holds the position of night charge nurse on the Cardiovascular Intensive Care Unit (CVICU) at the hospital. In this role, Fialk provides patient care and oversees the nursing operations of the night shift in the unit.

Fialk attended nursing school at Mt. Saint Vincent in New York, New York. 50 years later, Fialk still thrives on the everyday challenges that her nursing career brings. As an exceptional nurse leader, Fialk is an integral member of the care team in the CVICU and a positive role model for all nurses at FMC Campus.

#### Angela Brown, R.N.

Angela Brown, R.N., has been a dedicated nurse in the North Shore Medical Center FMC Campus Medical/Surgical Unit for over 12 years. In her daily role providing professional and technical nursing care to patients, she is reminded of why she pursued a nursing career: to Brown, each day brings new challenges and rewards knowing that she can care for the sick, alleviate suffering and promote good health.

Brown attended Mountainside Hospital School of Nursing and for most of her career as a registered nurse, Brown has been a committed employee of FMC Campus. She is an important member of the nursing staff, who all collaborate and work together to promote a positive and supportive working environment. While Brown is rewarded by taking care of each patient, she says the most influential times are waving goodbye to patients as they go home because that means that they are on their way to health.
