

TOP PHYSICIANS

NORTH SHORE MEDICAL CENTER FMC CAMPUS

Ralph M. Zagha, M.D.

Dr. Ralph Zagha is always ready for a challenge. He selected urology as his specialty due to the vast opportunities to help both men and women achieve positive health outcomes by performing both surgical and medical interventions. Dr. Zagha has been a staff urologist at North Shore Medical Center FMC Campus since 2006 and was recently appointed to Chief of Surgery. He treats a wide range of urological diseases and conditions including kidney stones, prostate enlargement, and urinary/bladder disorders with some of the latest procedures and equipment. With technology available at FMC Campus, Dr. Zagha can perform many minimally invasive procedures to treat kidney stones and even tumors, which can offer significant benefits to patients that often experience less pain and quicker recovery times.

Dr. Zagha is involved in many leadership opportunities at FMC Campus, serving as Chair of the Safety Committee and a member of the Utilization Management, Operating Room and Medical Care Evaluation Committees. Dr. Zagha completed his surgical residency at Massachusetts General Hospital and urology residency at the Lahey Clinic and Boston Children's Hospital. He earned his M.D. from Tufts University School of Medicine and his Bachelor of Science from the University of California at San Diego.

Hazel Wiley, D.O.

With a fascination for treating complex cases and a compassionate nature, Dr. Hazel Wiley found her niche in neurology. Dr. Wiley is a general neurologist on staff at North Shore Medical Center FMC Campus. At FMC Campus, Dr. Wiley is often found taking her time to build rapport with her patients and guiding them through the long treatment process that chronic neurological conditions can often bring. With genuine care and concern, she treats adults experiencing a wide range of neurological disorders, including stroke, memory disorders, seizures, neuromuscular disorders, headaches, and more. She also has specialized training to interpret electroencephalography and perform electromyography on-site at FMC Campus.

Dr. Wiley completed both her medical internship and neurology residency at Botsford Hospital at Michigan State University. She earned her Doctor of Osteopathic Medicine from Nova Southeastern University, Master of Science degree in Biomedical Science from Barry University and a Bachelor of Science in Food Science and Human Nutrition from the University of Florida. Dr. Wiley is a member of the American Academy of Neurology, American College of Osteopathic Neurologists and Psychiatrists, and American Osteopathic Association.
